LED APPLICATIONS

STREET & COMPOUND

Offering a wide range of lighting solutions for new projects and retrofit installations

Lighting up streets and roads enhance the comfort, security and overall safety of our rapidly growing urban environment. GINS affordable LED road lighting solutions ensure roads are well lit and in keeping with lighting standards. GINS designs are geared to achieve better light uniformity and maximum spacing between poles for both pedestrian and vehicle road applications. Surge Protection Devices (SPDs) specially designed for LED Street & Compound Lighting LED lights come with service life approximating 50,000 hours but with higher investment costs.

Thus, the use of surge protection devices (SPD) to achieve long life and high reliability is no longer an option, but a necessity. GINS Product range for street lights comply to local certification requirements viz., JKR/JMAL/SIRM Approvals etc., and ensures reliability and affordability.

LED Product Range

Wattage	: 200 to 300W
Lumen/Watt	: 100-140
CCT	: WW/CW/DL
Lifespan	: 30,000 to 70,000 hours
IP Range	: IP 65/66/67
Certification	: SIRIM/JKR/EMAL
